Objective

As a dedicated Computer Science and Engineering student, I am driven by a deep curiosity for technology and its transformative potential. I am constantly seeking opportunities to expand my knowledge and skills in software development.

Internship

2023   **FutoGen Computer Education**   **Figma UI/UX Development**

- I completed my internship in Figma UI/UX Development at FutoGen Computer Education, where I developed a User Dashboard, a Personal Profile, and a Study Material Management System. This experience has sparked my eagerness to design more applications using the Figma tool

2023   **FutoGen Computer Education**   **Web Designing**

- I completed my internship in Web Design at FutoGen Computer Education. After finishing the internship, I began learning Full Stack Development and developed a static school website using HTML, CSS, PHP, and SQL

Achievements/Awards

2023   **Excel Engineering College**   **Winner**

- I won 1st prize in the Bug Buster competition at Excel Engineering College, where I excelled in identifying and rectifying errors in code. This achievement demonstrates my strong attention to detail and my ability to efficiently troubleshoot and improve code quality

2019   **Venus**   **First Class With Distinction**

- I completed the Junior Grade Typewriting English course with First-class distinction at Venus Typewriting Institute
